

Corrigendum to the European Federation of Journalists' Survey on Collecting Systems for Journalists' Authors' Rights in the European Union – the situation in Belgium:

- SAJ and SOFAM are the main collecting societies in Belgium as far as journalists' authors' rights are concerned. However they work alongside other collecting societies.

- Reprobel and Auvibel are collecting societies, not agencies.

- Auvibel is responsible for the collection and distribution of the payments for copying sound and audiovisual works for personal use, through levies both on copying devices and on blank recording media. This money has not been distributed to SAJ yet.

- The tariffs for levies are as follow:
 - 3% of the price for copying devices (sale price for wholesalers and manufacturers/ purchase price for retailers);
 - 0,23€/hr for Audio CDs;
 - 0,12€/disk for CD-R, CD-RW;
 - 0,59€/disk for DVD-R, DVD-RW.
